Advertising Text

With Eve Play, stream music via AirPlay to existing amplifiers, active speakers or soundbars conveniently and in high fidelity. This way, your tried-and-tested Hi-Fi system becomes the new star of your multi-room setup.

USPs:

- Flexible upgrade to AirPlay audio streaming
- Automatic latency compensation for multi-room interplay
- Easy installation via QR code and app
- Powerful digital-to-analog converter (Texas Instruments Audio DAC PCM5122A)
- High-end signal-to-noise ratio (112 dB SNR)
- Three audio outputs (analog: RCA, digital: optical and coaxial)
- High-quality RCA cable included in the scope of delivery
- Stable Ethernet connection and 2.4/5 GHz Wi-Fi
- Award-winning, elegant design (Red Dot Winner 2023)

Recommendation for Placement

- Connected Home / Smart Home
- App-Enabled Accessories
- Audio range

Selling Points

Eve Play – Audio Streaming Interface
High-end streaming for your Hi-Fi system

- Stream your music to existing amplifiers, powered speakers or soundbars with AirPlay and make your favorite Hi-Fi components smart
- Synchronous multi-room playback: Audio Sync allows the system to play simultaneously with other AirPlay devices without speaker delay
- Powerful digital-to-analog converter with 112 dB signal-to-noise ratio for a high-end audiophile sound experience
- Flexible analog or digital connectivity: Connect your Hi-Fi components with the included RCA cable or digitally via optical and coaxial connections
- Integrated Ethernet port for highly stable streaming quality
- Quick and easy setup via Apple Home or the Eve app
- Award-winning, elegant design blends in stylishly with any home environment

eve play

Target Group
